

INFINITE30 CASE STUDIES

The Infinite30 Weight Loss & Wellness program helps you live healthier, be more active and feel better.

Introducing ROBERT

BACKGROUND:

Robert's health was becoming a concern. Beyond the normal aches & pains, his cholesterol levels, high blood pressure and overall lack of energy made it difficult to play with his grandchildren and experience an enjoyable quality of life.

RESULTS:

- ✓ Robert was able to come off of his high sugar medication.
- ✓ Robert was taken off of his high blood pressure meds.
- ✓ Robert no longer took medicine for high cholesterol.
- ✓ Robert was able to be more active and actually felt younger.
- ✓ Robert got the answers he needed to develop and maintain a healthy lifestyle.

Robert lost 40 pounds in his first 333 days on the Infinite30 program.

"Since joining Infinite30 I've felt, in an odd way, younger. It's made me wish I had found this program when I was younger. So I love that it's helped me be more active. You should join Infinite30 because it will give you what you need."
